

TRAINING COURSE ***Erasmus+***

HOW TO CREATE YOUTH EXCHANGES **about theatre, dance, music and sustainability**

4th August – 12th August 2020

Association Regain
La Borie Noble, France

We are looking for partner organizations from Europe who want to send youth workers and young people interested to take a training to learn how to write and realize their own Youth Exchange. We will receive 30 young people from 10 different countries.

WHERE?

Located high in the hills of the Languedoc region in France, La Borie Noble is a small community leading a simple life of mutual aid in the different works of the land, crafts and bakery.

They favour manual work, creative expression, a spirit of service, a sense of consciousness and respect for life in all of its forms.

They are also specialized in performative arts such as theatre, singing, dancing and music.

They use permaculture to provide solutions to the ecological crisis and non-violent communication to present and resolve conflicts.

PROGRAM/VISION OF THE TRAINING

This is a **training** and **networking** event for youth workers (or future youth workers) who would like to learn how to create Youth Exchanges on sustainability and performative arts.

The main focus will be on how to implement the program in ecovillages and rural projects using theatre, dance, music to promote sustainability.

We will train the participants on:

1. How to write and submit a Youth Exchange application.
2. How to read and easily use the Erasmus+ guide.
3. How to reach partners for their Youth Exchange.
4. How to conduct a Youth Exchange step by step from the initial idea to the final evaluation.
5. How to identify common ground and common goals to offer an intercultural experience to young people on ecological values and mutual respect.
6. Why and how to use theatre and music as a tool to share values.
7. Good practices in Youth Exchange implementation.

The **networking** aspect is very important during the training. All the participants will be invited to share their ideas to create a project and will start working on the most inspiring ones in small groups. This will favour the creation of a plan to be developed in the actual application. There will be constant feedback and mentoring from the trainers.

WHO CAN APPLY?

People of all ages, preferably people who aim to become (or already are) youth workers, and who have already participated in a Youth Exchange in an ecovillage or rural project, motivated to create new Youth Exchanges for 2021, applying in October 2020.

FULLY FUNDED!

Costs are full funded by the Erasmus + Program, including travel, accommodation, food and training. Participants are expected to pay the transport in advance.

Some of our partners can require the participants to be associated.

CERTIFICATION

Participants will get a Youth Pass Official Certification by the European Union.
